MILLION DOLLAR LIBRARY
****

The Indispensable Collection of
4,597 Titles !!

With Master Index: by Title
by Composer

With Important Information such as:

Title
Composer
Book Number
Page Number
Key Signature
First Note

For each of 4,597 Titles -- the most comprehensive collection ever assembled for professional musicians! Organized for your handy use on club dates, gigs, or anytime you need a reference.

How To Use This Index:

The Index by Title is sorted alphabetically by Title. For example, to find the song "Something", first locate the title under the "S" listings (Page 72). The listing shows:

Title	Composer	Book	Page	Key	1st
Something	Harrison	3	410	C	C

The song can be found on page 410 of the Third book. The song is in the key signature of C, and the first note of the melody is C.

Similarly, if the composer (Harrison, in this example) is known but the title is not, the same listing can be found in the Index by Composer, under the "H" listings.

Important Note: Because of the peculiarities of the way computers sort numbers, letters, and punctuation, the first twenty songs in the Index by Title , which have titles starting with numbers or punctuation, are listed before the letter "A".
